RESEARCH POSITIONS

Assistant Professor, Erasmus University Rotterdam, The Netherlands 2022 Feb – Present
Erasmus School of Social and Behavioural Sciences – Clinical Psychology

Postdoctoral Research Associate, University of Würzburg, Germany 2018 May – 2022 Jan
Research group “Cognitive Control in the Context of Stress and Health”
Project : *The generalisation and extinction of costly avoidance*
Supervisor: Prof. Dr. Andre Pittig

Visiting Fellow, Katholieke Universiteit Leuven, Belgium 2017 Sept – 2017 Dec
Supervisor: Prof. Dr. Tom Beckers

EDUCATION

Doctor of Philosophy (Psychology), University of New South Wales 2015 Mar – 2019 Feb
Highest grade recommended by all external thesis examiners
Thesis: *The effect of trait anxiety on the generalisation of fear acquisition and extinction*
Supervisor: Prof. Dr. Peter Lovibond

Bachelor of Science (Honours)/Commerce, University of New South Wales 2010 Mar - 2014 Dec
Majors: Psychology (Honours) and Marketing
First class Honours in Psychology
Honours Thesis: *Associative- and Propositional-based generalisation in human fear conditioning*
Supervisor: Prof. Dr. Peter Lovibond

RESEARCH INTERESTS

My research interests remain in the application of associative learning to anxiety-related psychopathology in humans. I am particularly interested in the generalisation of fear and avoidance to novel objects or situations, the extinction of pathological fear and avoidance, and how predisposing risk factors contribute to the acquisition of pathological fear. I am also keen in developing new research methods and measurements to more precisely address the research questions of interest.

SCHOLARSHIPS & AWARDS

Postdoc Plus Grant (€12,500) 2021 - 2022
Seed grant awarded for innovative research ideas
Funded by the Graduate School of Life Science, University of Würzburg

UNSW Exchange Program Award (\$3000)

2017

Travelling award for visiting Prof. Dr. Tom Beckers at KU Leuven

Funded by the School of Psychology, University of New South Wales

Australian Postgraduate Award (\$26000 annually)

2015 - 2018

Scholarship awarded for postgraduate research training

Funded by the Australian Federal Government

TEACHING & MENTORING

Erasmus University Rotterdam:

Lecturer & course coordinator – Anxiety and Stress (Bachelor)

2022 – present

Taught the etiology, maintenance, and treatments for a variety of anxiety-related disorders. Introduction of experimental psychopathology and its clinical translation.

Supervisor - Research theses and internship supervision

2022 – present

Supervised the processes of data collection, data analyses, and thesis writing. All research topics focused on anxiety-related experimental psychopathology, including the generalisation and extinction of learnt fear and fear-related costly avoidance. (Number of master students: 16; Number of research interns: 4)

University of Würzburg:**Instructor – Seminar of Clinical Psychology (Masters)**

2018 - 2022

Taught and discussed how various associative learning models contribute to the understanding of the etiology and maintenance of a variety of clinical disorders, including anxiety-related disorders, schizophrenia, and substance use disorders. The seminar focused on experimental psychopathology and its clinical translation.

Instructor – Translational Neuroscience (Masters)

2019 - 2022

Taught and discussed the neuroscience approaches to the understanding of psychopathology in both animals and humans, with a specific focus on anxiety-related experimental psychopathology.

Instructor – Seminar of Clinical Psychology (Bachelor)

2018 - 2022

Taught and discussed the various models of fear learning, and the contribution of these models to understand the acquisition, maintenance, generalisation, and reduction of maladaptive fear in anxiety-related disorders. The seminar focused on anxiety-related experimental psychopathology and its clinical implications.

Supervisor - Research theses and internship supervision

2018 - 2022

Supervised the processes of data collection, data analyses, and thesis writing. All research topics focused on anxiety-related experimental psychopathology, including the generalisation and extinction of learnt fear and fear-related costly avoidance. (Number of master students: 8; Number of bachelor students: 1; Number of research interns: 8)

University of New South Wales:**Tutor – Introduction to Psychology tutorials**

2016 – 2017

Delivered first year psychology content to undergraduates. Responsible for marking students' assignments, mid-session exams and presentations.

Tutor – Research Methods tutorials

2016 - 2017

Taught the concept and the usage of statistical analyses. Responsible for marking students' assignments and mid-session exams.

Peer mentor – Undergraduate peer mentoring program

2017

Peer mentored six Honours students, shared knowledge and experience in research, and helped evaluating their research career options.

PHD SUPERVISION

Paula Engelke 2019 – present

University of Würzburg

Co-supervised with Prof. Dr. Andre Pittig

Asimina Aslanidou 2022 - present

Erasmus University Rotterdam

Co-supervised with Prof. Dr. Matthias Wieser & Dr. Marta Andreatta

Mozhao Li 2023 – present

Erasmus University Rotterdam

Co-supervised with Prof. Dr. Matthias Wieser & Dr. Minita Franzen
